Project

Salesforce Website Clone	*Jan'23-Apr'23*

BIT Explanation:

In this project, I developed a website clone of Salesforce, a popular customer relationship management (CRM) platform. The goal was to replicate the core features and functionalities of Salesforce.com using HTML, CSS, JavaScript, and java.

- Front-end development using HTML, CSS, and JavaScript
- Back-end development using java

Academic and Extracurricular Achievements

- IBM Workshop Project: AI-Powered Chatbot Development using NLP for Sentiment Analysis
  Role: Team Lead
  Project Overview: Developed an AI-powered chatbot using natural language processing (NLP) techniques to analyze customer text analysis.

  - Team Captain, Target Team (2020-2022)
    Leadership Role: Led a team of 12 players, responsible for motivating and guiding teammates to achieve common goals
